

Welcome to Stanley Bay School

At Stanley Bay, we want children to feel happy and secure to develop self-confidence in a safe and supportive environment where learning is central to all that we do, and is fundamental to the science of learning. We promote personal excellence and a belief that 'those who do their best do well'.

Our students experience success.

We have highly skilled kaiako/teachers who work with Maths expert: Lucie Cheeseman each term. We have implemented structured literacy for a few years now.

Every class has specialist classes each week (Science, Music & Drama). Learning assistants support in class and run support programmes.

We provide an engaging and innovative curriculum to enable your child to realise their potential and pride ourselves on being future-focused, placing emphasis on STEAM (Science, Technology, Environment, Arts, and Maths) and PE/Health subjects. At Stanley Bay, we embrace the opportunity to teach your child the skills, knowledge, and attitudes to become culturally confident, creative, and curious learners who are connected to the community and the wider world.

Stanley Bay is a strong and supportive community and we invite you to partner with us to ensure the best possible outcomes for your child.
